

Originally founded in 1990, Clarence Hill today is known for making wines style and drinkability using our family of growers.

Our Sparkling Cuvee is made as an easy drinking, uncomplicated wine at everyday value.

Made from a mix of regions this wine was picked at night and the juice was extracted quickly, clarified then fermented in stainless steel with aromatic yeasts. Secondary formation has provided complexity and the lovely fizzy notes that a sparkling wine provides.

Clarence Hill Wines made are elegant and capture classic varietal notes – they are 'Naturally Blessed Vineyards'.

## Sparkling Cuvee

NV
