

Originally founded in 1990, Clarence Hill today is known for making wines style and drinkability using our family of growers.

Our grapes are sourced from vineyards in Australia .

Made simply with protective winemaking this wine captures the characters well. With crisp acidity this wine utilizes an amount of residual sugar to provide balance. It is expected this wine will age gracefully in the medium term in a cool cellar.

Clarence Hill Wines made are elegant and capture varietal notes – they are ‘Naturally Blessed Vineyards’.

2020 Pinot Grigio
